

RCAP Solutions Community Development

What do community leaders say about income surveys?

"Without an income survey, our residents would have been paying an average annual user rate of \$1,109 after our new system was completed. The income survey helped us qualify for a low interest federal loan and a grant that dropped the average rate to \$740. Those kinds of savings mean a lot to our community."

—DAVID YOUNKER, CHAIRMAN, BETHEL (PA)
TOWNSHIP MUNICIPAL AUTHORITY

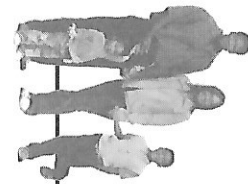

"RCAP Solutions did an outstanding job of educating our community and working with the Board of the Gregg Township Water Authority to make sure everyone in the community was comfortable with the survey and how it would be conducted. We had an outstanding participation rate of 89%, which helped us achieve an accurate picture of our community's economic situation."

—ERIC S. LUNDY, PE,
NITTANY ENGINEERING
& ASSOCIATES, LLC
