

For Participation in the “Toilet Flapper Program” Please Fill Out This Questionnaire

Step 1 (Information):

Name _____

Phone # or Email _____

Address: _____

How Many Toilets are in your home? _____

How old are they (best estimate in years old)? _____

Step 2 (Complete the Dye Test):

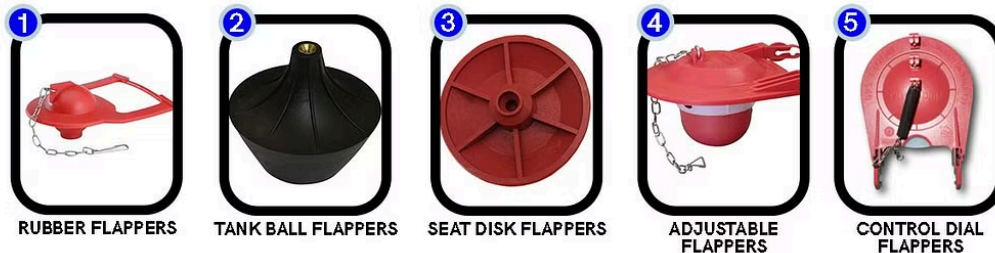

EPA Toilet Leak Test Protocol:

1. Drop a dye tablet or a few drops of food coloring into each toilet tank.
 2. Wait 5 to 10 minutes without flushing.
 3. Check the toilet to see if the color leaked from the tank into the bowl.
 4. If color is observed in the bowl, the flapper or flush valve seal is leaking and needs to be replaced.
- Note: Flush the toilet within 5 to 10 minutes after inserting the dye to avoid staining

If yours appears to be leaking, complete Step 3.

Step 3: Identify type of toilet flapper for replacement (first come, first serve)

TOILET FLAPPER TYPES

What type of flapper/s do you have? _____

If unsure, or none of the above, email a photo to info@elvdnh.com.

Send completed questionnaires to info@elvdnh.com or mail to Emerald Lake Village District,
P.O. Box 1753, Hillsboro NH 03244.

Thank you, Board of Commissioners
